Professional Summary

Early-career business and data analyst with a Master of Business Analytics from Edith Cowan University, Australia, and 2025 Data Intern experience at AYLA Solutions, Australia. Applies requirements gathering, PostgreSQL, SQL, advanced Excel, relational modelling, data cleaning and validation, financial and operational KPIs, and documentation to decision-focused reporting.

Core Competencies

- **Data Management & Quality:** PostgreSQL, SQL, advanced Excel, relational models, extraction, cleaning, validation, data definitions, business rules, joins, CTEs, window functions, and repeatable checks.
- **Business & Process Analysis:** Requirements elicitation and documentation, reporting requirements, process mapping, workflow coordination, stakeholder communication, Agile planning, and review sessions.
- **Financial & Operational Reporting:** Revenue, payments, compensation, billing, claims, KPI and trend analysis, business recommendations, visualization requirements, and Power BI dashboard planning.
- **Delivery & Controls:** Git, GitHub Actions, automated validation, analytical documentation, Microsoft Office, Google Workspace, client support, and confidential-record handling.

Professional Experience

AYLA Solutions

Australia

Data Intern

2025

- Gathered and documented business, data, and reporting requirements; translated stakeholder questions into structured analytical needs, KPI definitions, and reporting outputs.
- Supported SQL extraction and validation and prepared advanced Excel reports and dashboard insights for performance tracking.
- Participated in Agile planning and reviews, communicated progress and findings, and maintained precise documentation.

Trans Globe Education

India

Support Executive

2022–2023

- Managed accurate client documentation and coordinated application and process updates with students and institutions.
- Supported administrative reporting, workflow management, market research, and communication across active cases.

Arihant Investment

India

Administrative Executive

2020–2021

- Maintained accurate business data, documentation, and confidential client records while supporting daily operations.
- Coordinated client communication and information updates with close attention to accuracy and discretion.

Business Analytics Projects

E-Commerce Financial & Sales Analytics

PostgreSQL, SQL, Data Quality

- Built a PostgreSQL model connecting customers, products, orders, line items, and payments with primary/foreign keys, uniqueness rules, checks, and a defined recognized-revenue rule.
- Analyzed customer spend, order frequency, product rankings, monthly revenue, and payment methods; added repeatable validation, GitHub Actions, AI-assisted recommendations, and Power BI KPI planning.

Healthcare Operations Analytics

PostgreSQL, SQL, KPI Analysis

- Modelled six connected entities and analyzed appointment completion, treatment costs, billing status, clinician workload, and insurance claims using CTEs and window functions.
- Documented assumptions, applied repeatable validation and AI-assisted recommendations, and planned Power BI reporting.

Workforce & Employee Analytics

PostgreSQL, SQL, Business Intelligence

- Built a normalized workforce model spanning departments, employees, salaries, performance reviews, and attendance; analyzed headcount, compensation, performance, hiring year, and tenure.
- Used CTEs, rankings, and window functions with repeatable validation and translated findings into AI-assisted recommendations and Power BI reporting plans.
