Professional Summary

Business Analytics graduate and early-career analyst with Australian Data Intern experience in requirements, SQL and Excel reporting, KPIs, and Agile delivery. Combines analytical training, financial-services exposure, process coordination, and client communication to turn business questions into validated insights and structured recommendations.

Core Competencies

- **Strategy & Business Analysis:** Requirements gathering, process mapping, strategic research, decision support, recommendations, and problem solving.
- **Coordination & Communication:** Stakeholder communication, client support, workflow coordination, progress updates, documentation, and Agile ceremonies.
- **Analytics & Reporting:** PostgreSQL, SQL, advanced Excel, KPI definition, data cleaning and validation, trend analysis, segmentation, and Power BI dashboard planning.
- **Tools & Domain:** Microsoft Office, Google Workspace, Git, GitHub Actions, financial-services exposure, confidential records, and AI-assisted analysis.

Professional Experience

AYLA Solutions

Australia

Data Intern

2025

- Gathered business and reporting requirements, translating stakeholder questions into structured analytical tasks and outputs.
- Supported SQL extraction and validation, advanced Excel reporting, and dashboard insights for business-performance tracking.
- Joined Agile sprint planning and reviews, shared progress, and maintained requirements documentation.

Trans Globe Education

India

Support Executive

2022–2023

- Coordinated application updates between students and institutions, supporting communication and follow-through.
- Managed client documentation and records; supported administrative reporting, workflows, and market research activities.

Arihant Investment

India

Administrative Executive

2020–2021

- Supported investment-services operations and client communication while maintaining confidential business records.
- Handled data entry, documentation, and client-record maintenance with attention to accuracy and reliability.

Business Analytics Projects

E-Commerce Sales Analytics

PostgreSQL, SQL, Power BI

- Modelled customers, products, orders, line items, and payments; defined recognized revenue and analyzed customer, product, monthly revenue, and payment trends.
- Converted validated SQL findings into AI-assisted recommendations and Power BI KPI, filter, visual, and decision-use plans; added repeatable GitHub Actions checks.

Bank of Baroda Customer Behaviour Analysis

Excel, SQL, Financial Services

- Used Excel and SQL to analyze customer transactions and presented engagement and service recommendations.

HR Analytics

PostgreSQL, SQL, Business Intelligence

- Analyzed workforce headcount, compensation, performance, attendance, hiring, and tenure using CTEs and window functions.
- Translated validated findings into AI-assisted recommendations and documented Power BI plans for workforce reporting decisions.
