Professional Summary

Business Analytics graduate and early-career analyst with Australian Data Intern experience across requirements, SQL, advanced Excel reporting, KPIs, and Agile delivery. Combines financial-services exposure, process coordination, and client communication to turn business questions into validated analysis and practical recommendations.

Core Competencies

- **Strategy & Business Analysis:** Requirements, process mapping, market research, KPIs, and decision support.
- **Stakeholders & Delivery:** Stakeholder communication, workflow coordination, documentation, and Agile ceremonies.
- **Analytics & Technology:** PostgreSQL, SQL, advanced Excel, validation, Power BI planning, and GitHub Actions.

Professional Experience

AYLA Solutions

Australia

Data Intern

2025

- Gathered and documented business and reporting requirements, translating stakeholder questions into structured analytical tasks and defined outputs.
- Supported SQL extraction and validation, advanced Excel reporting, and dashboard insights for performance tracking.
- Participated in Agile sprint planning and reviews, communicated progress, and maintained documentation linking requirements, analysis, and reporting needs.

Trans Globe Education

India

Support Executive

2022–2023

- Coordinated application and process updates between students and institutions, supporting clear communication, accurate status records, and dependable workflow follow-through.
- Managed client documentation and supported administrative reporting, workflow management, client communication, and market research.

Arihant Investment

India

Administrative Executive

2020–2021

- Supported investment-services operations and client communication while handling data entry, documentation, and confidential client-record maintenance.
- Maintained accurate, reliable business information for daily operational and client-support activities.

Business Analytics Projects

E-Commerce Sales Analytics

PostgreSQL, SQL, Power BI

- Built a PostgreSQL model connecting customers, products, orders, line items, and payments, with keys, uniqueness rules, checks, and a recognized-revenue definition excluding pending, refunded, and cancelled activity.
- Analyzed spend, frequency, rankings, monthly revenue, and payment methods; converted validated SQL outputs into AI-assisted recommendations and Power BI plans covering KPIs, filters, visuals, and decision uses.

Bank of Baroda Customer Behaviour Analysis

Excel, SQL, Financial Services

- Cleaned, visualized, and analyzed customer transaction patterns using Excel and SQL; presented recommendations for customer engagement and service delivery.

Healthcare Patient & Hospital Analytics

PostgreSQL, SQL, Power BI

- Modelled patients, clinicians, appointments, treatments, billing, and claims; used CTEs and window functions for rankings, segmentation, running totals, and lag comparisons.
- Analyzed appointment completion, costs, billing status, clinician workload, and insurance claims; documented validation, AI-assisted recommendations, and Power BI dashboard planning.
