Toronto, Ontario, Canada | jainali2000@gmail.com | LinkedIn | GitHub

Professional Summary

Early-career data analyst in Toronto with Australian Data Intern experience, a Master of Business Analytics from Australia, and retail-relevant e-commerce portfolio analysis. Brings PostgreSQL, SQL, advanced Excel, data cleaning and validation, KPI reporting, trend and segmentation analysis, Power BI planning, actionable recommendations, and stakeholder communication.

Core Competencies

- **Retail-Relevant Analytics:** Customer spend, order frequency, product rankings, monthly revenue, payment methods, recognized revenue rules, trend analysis, segmentation, and operational KPIs.
- **Data Analysis & Reporting:** PostgreSQL, SQL, advanced Excel, pivot tables, extraction, cleaning, validation, joins, CTEs, aggregations, rankings, running totals, lag comparisons, and window functions.
- **BI & Insight Planning:** KPI and reporting requirements, Power BI dashboard planning, visualization requirements, filters, decision-use cases, AI-assisted SQL insights, and business recommendations.
- **Quality & Collaboration:** Integrity checks, documented assumptions and business rules, repeatable validation, stakeholder communication, Agile planning and reviews, Git, GitHub, and GitHub Actions.

Professional Experience

AYLA Solutions

Australia

Data Intern

2025

- Gathered and documented business, data, and reporting requirements; translated stakeholder questions into structured analytical tasks and reporting outputs.
- Supported SQL extraction and validation; prepared advanced Excel reports and dashboard insights for performance reporting.
- Participated in Agile planning and review sessions, communicated progress, and maintained accurate analytical documentation.

Trans Globe Education

India

Support Executive

2022–2023

- Managed client documentation and accurate records; coordinated application and process updates with students and institutions.
- Supported administrative reporting, workflow management, client communication, and market research activities.

Arihant Investment

India

Administrative Executive

2020–2021

- Handled data entry, documentation, and confidential client-record maintenance with close attention to accuracy.
- Supported daily business operations and client communication while maintaining reliable business information.

Business Analytics Projects

E-Commerce Sales Analytics

PostgreSQL, SQL, Retail KPIs

- Built a relational PostgreSQL model connecting customers, products, orders, line items, and payments; applied keys, uniqueness rules, integrity checks, and recognized revenue rules excluding pending, refunded, and cancelled activity.
- Analyzed customer spend, order frequency, product rankings, monthly revenue, and payment methods using joins, CTEs, segmentation, rankings, running totals, aggregations, and window functions.
- Documented repeatable validation, AI-assisted commercial recommendations grounded in SQL outputs, and Power BI dashboard planning with KPIs, filters, visuals, and decision-use cases.

HR Analytics

PostgreSQL, SQL, Operational KPIs

- Built a normalized workforce model spanning departments, employees, salaries, performance, and attendance; analyzed headcount, compensation, performance, attendance, hiring year, and tenure.
- Applied CTEs, rankings, window functions, repeatable validation, and GitHub Actions; documented SQL-grounded recommendations and Power BI dashboard planning.

Healthcare Patient & Hospital Analytics

PostgreSQL, SQL, Data Validation

- Modelled patients, clinicians, appointments, treatments, billing, and insurance claims; analyzed completion, costs, billing status, workload, and claims using CTEs, segmentation, rankings, and lag comparisons.
- Documented assumptions, repeatable validation, AI-assisted operational recommendations, and Power BI dashboard planning.
