Professional Summary

Early-career insights and analytics professional in Toronto with Australian Data Intern experience and a Master of Business Analytics from Australia. Brings advanced Excel, PostgreSQL, SQL, KPI reporting, trend and segmentation analysis, data validation, Power BI planning, stakeholder communication, and decision-focused recommendations.

Core Competencies

- **Insights & Business Storytelling:** Trend, segmentation, performance and exception analysis; documented assumptions; AI-assisted interpretation of SQL findings; actionable recommendations; stakeholder communication.
- **Data Analytics:** PostgreSQL, SQL, advanced Excel, pivot tables, extraction, cleaning, validation, joins, CTEs, aggregations, rankings, running totals, lag comparisons, and window functions.
- **Reporting & BI:** KPI definition, reporting requirements, Power BI dashboard planning, visualization requirements, report design, performance insights, and decision-use cases.
- **Financial & Operational Foundation:** Revenue, payments, costs, billing, claims, compensation, confidential records, NISM securities-markets foundation, and process coordination.

Professional Experience

AYLA Solutions

Australia

Data Intern

2025

- Gathered and documented business and reporting requirements, translating stakeholder questions into structured analytical tasks and reporting outputs.
- Supported SQL extraction and validation and prepared advanced Excel reports and dashboard insights for performance tracking.
- Participated in Agile sprint planning and reviews, communicated progress, and maintained accurate analytical documentation.

Trans Globe Education

India

Support Executive

2022–2023

- Maintained accurate client records and coordinated application and process updates with students and institutions.
- Supported administrative reporting, workflow management, client communication, and market research.

Arihant Investment

India

Administrative Executive

2020–2021

- Handled data entry, documentation, and confidential client-record maintenance with close attention to accuracy.
- Supported daily business operations and client communication while maintaining reliable financial-business information.

Business Analytics Projects

E-Commerce Sales Analytics

PostgreSQL, SQL, Customer Insights

- Built a PostgreSQL model connecting customers, products, orders, line items, and payments; applied keys, integrity checks, and revenue logic excluding pending, refunded, and cancelled activity.
- Analyzed customer spend, order frequency, product rankings, monthly revenue, and payment methods using joins, CTEs, segmentation, rankings, running totals, aggregations, and window functions.
- Converted validated SQL findings into AI-assisted business insights, recommendations, and Power BI dashboard planning with KPIs, filters, visuals, and decision-use cases.

Healthcare Patient & Hospital Analytics

PostgreSQL, SQL, Performance Insights

- Modelled patients, clinicians, appointments, treatments, billing, and claims; analyzed completion, costs, billing status, workloads, and claims using CTEs, rankings, running totals, and lag comparisons.
- Documented assumptions, repeatable validation, SQL-based recommendations, and Power BI dashboard planning.

HR Analytics

PostgreSQL, SQL, Performance KPIs

- Built a normalized workforce model spanning departments, employees, salaries, performance, and attendance; analyzed headcount, compensation, performance, attendance, hiring, and tenure.
- Applied CTEs, rankings, window functions, repeatable validation, and GitHub Actions; documented recommendations from SQL findings and Power BI dashboard planning.
