

SKILLS

Data Analysis: PostgreSQL, SQL, advanced Excel, relational modelling, joins, CTEs, window functions
Data Quality: Cleaning, validation, integrity checks, uniqueness rules, business rules, repeatable tests
KPI Investigation: KPI definition, trend analysis, segmentation, rankings, running totals, lag comparisons
Reporting & BI: Reporting requirements, Power BI planning, visualization requirements, business insights
Documentation: Business processes, analytical assumptions, technical findings, recommendations
Delivery: Stakeholder communication, Agile planning and reviews, Git, GitHub Actions, workflow coordination

EXPERIENCE

AYLA Solutions	Australia
<i>Data Intern</i>	2025
◦ Requirements & Reporting: Gathered and documented reporting requirements, translating stakeholder questions into structured analytical work. ◦ SQL & Excel Analysis: Supported SQL-based extraction and validation, prepared advanced Excel reports, and contributed dashboard insights for performance tracking. ◦ Agile Collaboration: Participated in sprint planning and review sessions, communicated progress, and maintained accurate analytical documentation.	
Trans Globe Education	India
<i>Support Executive</i>	2022–2023
◦ Records & Coordination: Managed client documentation and accurate records while coordinating application and process updates with students and institutions. ◦ Reporting & Research: Supported reporting and client communication while coordinating market research and workflows under competing deadlines.	
Arihant Investment	India
<i>Administrative Executive</i>	2020–2021
◦ Records & Operations: Maintained accurate, confidential client records and documentation while supporting daily operations and client communication.	

PROJECTS

- **E-Commerce Sales Analytics:** Built a PostgreSQL model connecting customers, products, orders, line items, and payments; applied keys, uniqueness rules, checks, and recognized-revenue logic; analyzed monthly, customer, product, and payment KPIs with repeatable validation and recommendations.
- **Healthcare Patient & Hospital Analytics:** Modelled patients, clinicians, appointments, treatments, billing, and claims; used CTEs and window functions for rankings, segmentation, running totals, lag comparisons, automated validation, recommendations, and Power BI dashboard planning.
- **HR Analytics:** Built a normalized workforce model and analyzed headcount, compensation, performance, attendance, hiring, and tenure using CTEs, rankings, window functions, repeatable validation, and documented recommendations.

EDUCATION

Edith Cowan University	Australia
<i>Master of Business Analytics</i>	2023–2025
◦ Relevant Coursework: Databases and Business Intelligence, Analytics and Business Decision Making, Machine Learning, Business Systems Analysis, and Enterprise Architecture.	
Atmiya University	India
<i>Integrated Master of Business Administration</i>	2018–2022

CREDENTIALS

- **Business Analysis & Process Management:** Coursera Project Network, issued June 2025; Credential ID: WV4JMS14XVV6.
- **NISM Series XII:** Securities Markets Foundation.
