Professional Summary

Early-career business and data analyst in Toronto with Australian Data Intern experience and a Master of Business Analytics from Australia. Brings PostgreSQL, SQL, advanced Excel, relational modelling, data validation, documented business rules, reporting requirements, process documentation, KPI planning, and stakeholder communication.

Core Competencies

- **Data Quality & Governance Foundation:** Integrity checks, primary and foreign keys, uniqueness rules, documented assumptions and business rules, repeatable validation, confidential records, Git, and GitHub Actions.
- **Data Analysis:** PostgreSQL, SQL, advanced Excel, pivot tables, structured relational data, extraction, cleaning, validation, joins, CTEs, aggregations, segmentation, rankings, and window functions.
- **Requirements & Process:** Business and reporting requirements, process mapping, workflow documentation, stakeholder communication, Agile planning and reviews, coordination, and analytical documentation.
- **Reporting & Model Foundation:** KPI definition, Power BI dashboard planning, visualization requirements, AI-assisted SQL interpretation, Machine Learning coursework, and business recommendations.

Professional Experience

AYLA Solutions

Australia

Data Intern

2025

- Gathered and documented business, data, and reporting requirements; translated stakeholder questions into structured analytical tasks and reporting outputs.
- Supported SQL extraction and validation; prepared advanced Excel reports and dashboard insights for performance reporting.
- Participated in Agile planning and review sessions, communicated progress, and maintained accurate analytical documentation.

Trans Globe Education

India

Support Executive

2022–2023

- Managed client documentation and accurate records; coordinated application and process updates with students and institutions.
- Supported administrative reporting, workflow management, client communication, and market research activities.

Arihant Investment

India

Administrative Executive

2020–2021

- Handled data entry, documentation, and confidential client-record maintenance with close attention to accuracy.
- Supported daily business operations and client communication while maintaining reliable business information.

Business Analytics Projects

E-Commerce Sales Analytics

PostgreSQL, SQL, Data Controls

- Built a relational model connecting customers, products, orders, line items, and payments; applied primary and foreign keys, uniqueness rules, integrity checks, and revenue rules excluding pending, refunded, and cancelled activity.
- Analyzed spend, order frequency, product rankings, monthly revenue, and payment methods; documented repeatable validation, AI-assisted recommendations grounded in SQL, Power BI planning, and GitHub Actions.

HR Analytics

PostgreSQL, SQL, Sensitive Data

- Built a normalized workforce model spanning departments, employees, salaries, performance, and attendance; analyzed headcount, compensation, performance, attendance, hiring year, and tenure.
- Applied CTEs, rankings, window functions, repeatable validation, and GitHub Actions; documented SQL-grounded recommendations and Power BI dashboard planning.

Healthcare Patient & Hospital Analytics

PostgreSQL, SQL, Validation

- Modelled patients, clinicians, appointments, treatments, billing, and insurance claims using validated relationships and documented assumptions; analyzed completion, costs, billing status, workload, and claims.
- Used CTEs, segmentation, rankings, running totals, lag comparisons, repeatable validation, and GitHub Actions; documented AI-assisted recommendations and Power BI planning.
