Hiring Manager

University of Toronto
Centre for International Experience
Office of the Vice-Provost, Students
St. George Campus, Toronto, ON

Dear Hiring Manager,

I am applying for the Program Coordinator, International Student Development Programs position (Req ID 49605) with the University of Toronto's Centre for International Experience. I bring student-facing support experience, international education and work exposure, and a practical foundation in program assessment and process improvement. I completed a Master of Business Analytics at Edith Cowan University in Australia after earning an Integrated Master of Business Administration from Atmiya University in India, and I now reside in Toronto.

At Trans Globe Education in India, I maintained accurate student and client records and coordinated application and process updates with students and educational institutions. I also supported administrative reporting, workflow management, client communication, and market research. This experience strengthened the care, accuracy, responsiveness, and stakeholder awareness I would bring to collaborative international-student programs.

My assessment experience complements that service foundation. For my Online GST Filing Adoption Research, I designed and conducted a Google Forms survey of small businesses in Gujarat, cleaned and analyzed responses in Excel with formulas, filters, pivot tables, percentages, and charts, and documented adoption barriers and recommendations. At AYLA Solutions in Australia, I gathered stakeholder and reporting requirements, prepared advanced Excel reports, supported SQL validation, and communicated progress through Agile planning and review sessions. Together, these experiences prepare me to contribute to program reporting, feedback tools, process improvements, and evidence-informed decisions.

I am especially drawn to CIE's holistic view of transition in, the journey years, and transition out. The opportunity to work across Student Life units, faculties, international centres, and student groups aligns with my strengths in listening, structured coordination, clear documentation, and dependable follow-through. My coursework in People Analytics, Project Management, and Business Process Management further supports a thoughtful approach to participant needs, implementation, and continuous improvement.

I would bring directly relevant student-support exposure, cross-border educational perspective, strong assessment skills, and humility about the expertise required. I would welcome the opportunity to help CIE deliver accessible, well-organized, and evidence-informed initiatives that strengthen belonging and student success.

Thank you for your time and consideration. I look forward to discussing how I could contribute to your team.

Best regards,

Jainali Mehta
