Business Analysis: Requirements Gathering, Process Mapping, Business Documentation, Stakeholder Communication
Delivery & AI: Agile, Git, GitHub Actions, AI-Assisted Analysis, Microsoft 365, Google Workspace

EXPERIENCE

AYLA Solutions <i>Data Intern</i> - Gathered and documented business and reporting requirements for analytical work. - Supported SQL-based extraction and structured source data for recurring analysis. - Prepared advanced Excel reports and contributed dashboard insights for performance tracking. - Participated in sprint planning and review sessions to coordinate analytical tasks.	Australia 2025
Trans Globe Education <i>Support Executive</i> - Managed client documentation and maintained accurate application records. - Coordinated application and process updates with students and institutions. - Supported administrative reporting and workflow management activities. - Supported client communication and market research activities.	India 2022–2023
Arihant Investment <i>Administrative Executive</i> - Performed data entry and maintained confidential client records and documentation. - Supported daily operations, client communication, and reliable business information.	India 2020–2021

PROJECTS

- E-Commerce Sales Analytics:** Built a five-entity PostgreSQL model with primary keys, foreign keys, uniqueness rules, and checks. Defined recognized revenue to exclude pending, refunded, and cancelled activity; analyzed customer spend, order frequency, product rankings, monthly revenue, and payment methods. Added repeatable validation, GitHub Actions, completed AI-assisted recommendations, and Power BI KPI planning.
- Healthcare Patient & Hospital Analytics:** Modelled patients, clinicians, appointments, treatments, billing, and insurance claims. Applied CTEs, rankings, segmentation, running totals, and lag comparisons to assess appointment completion, costs, billing status, clinician workload, and claims. Added automated validation, completed AI-assisted operational recommendations, and Power BI dashboard planning.
- HR Analytics:** Built a normalized PostgreSQL model spanning departments, employees, salaries, performance reviews, and attendance. Used CTEs and window functions to analyze headcount, compensation, performance, attendance, hiring year, and tenure. Added validation, AI-assisted workforce recommendations, and Power BI planning.
- Additional Business Analysis:** Analyzed Bank of Baroda customer transaction patterns with Excel and SQL and presented engagement recommendations; designed an online GST filing acceptance survey, analyzed responses in SPSS, and earned an A grade. Participated in an International Family Business Conference.

CREDENTIALS

- Business Analysis & Process Management:** Coursera Project Network, June 2025; Credential ID: WV4JMS14XVV6.
- NISM Series XII:** Securities Markets Foundation.
