Hiring Manager

Ministry of Labour, Immigration, Training and Skills Development
400 University Avenue, Toronto, ON

Dear Hiring Manager,

I currently live in Toronto and am applying to the Ministry of Labour, Immigration, Training and Skills Development for the Senior Analyst position, Job ID 246910. I earned my Master of Business Analytics from Edith Cowan University in Australia and my Integrated Master of Business Administration from Atmiya University in India. The opportunity to support user-centred digital transformation through data, research, business analysis, and responsible AI strongly matches the direction in which I have built my analytical foundation.

As a Data Intern at AYLA Solutions in Australia in 2025, I gathered and documented business, data, and reporting requirements and translated stakeholder questions into structured analytical needs. I supported SQL-based extraction and validation, prepared advanced Excel reports, and contributed dashboard insights for performance reporting. Through Agile planning and reviews, I communicated progress and maintained clear analytical documentation. This experience taught me to connect requirements, reliable data, and practical reporting while working collaboratively.

My projects provide concrete evidence in workforce analytics, quantitative research, and digital reporting. For a workforce and employee analytics project, I modelled employee, salary, performance, and attendance data and analyzed headcount, compensation, hiring, attendance, and tenure. I translated validated SQL findings into Generative AI-assisted recommendations and a structured Power BI reporting plan. In a separate research project, I designed a survey of small businesses in Gujarat, analyzed online GST-filing adoption in SPSS, interpreted barriers and patterns, and earned an A grade. My e-commerce project further demonstrates relational modelling, revenue and payment KPIs, documented business rules, and repeatable data-quality checks.

Earlier roles at Trans Globe Education and Arihant Investment in India developed my workflow coordination, reporting support, records management, client communication, and careful handling of confidential information. Graduate coursework strengthened my process evaluation, analytical structuring, and recommendation writing.

I am drawn to the Labour Relations Solutions Division's focus on client-centred digital services, data reporting, research, and process improvement across Ontario. I would bring disciplined analysis, clear documentation, and dependable stakeholder support to Strategic Initiatives.

Thank you for your consideration.

Best regards,

Jainali Mehta
