Professional Summary

Program-support and analytics professional with international education and work experience in Australia and India. Experienced in student and institutional communication, process updates, accurate records, stakeholder requirements, reporting, survey research, and evidence-based recommendations. Brings a Master of Business Analytics, project-management coursework, and a collaborative approach to service improvement.

Core Competencies

- **Student & Stakeholder Support:** Student and institutional communication, application and process updates, client support, accurate records, market research, and cross-functional requirements gathering.
- **Program & Process Coordination:** Administrative reporting, workflow management, process documentation, service improvement, Agile planning, and project-management principles.
- **Assessment & Reporting:** Google Forms, advanced Excel, survey design, data cleaning, pivot tables, percentages, charts, KPI definition, qualitative and quantitative findings, and recommendations.
- **Digital Tools & Records:** Microsoft Office, Google Workspace, SQL, PostgreSQL, GitHub, and confidential records.

Professional Experience

AYLA Solutions

Australia

Data Intern

2025

- Gathered and documented stakeholder, data, and reporting requirements; translated business questions into structured analytical tasks and reporting outputs.
- Supported SQL extraction and validation, prepared advanced Excel reports and dashboard insights, and communicated progress through Agile planning and review sessions.

Trans Globe Education

India

Support Executive

2022–2023

- Managed student and client documentation and maintained accurate records; coordinated application and process updates with students and educational institutions.
- Supported administrative reporting, workflow management, client communication, and market research while responding carefully to stakeholder needs.

Arihant Investment

India

Administrative Executive

2020–2021

- Handled data entry, documentation, and confidential client-record maintenance with close attention to accuracy.
- Supported daily business operations and client communication while maintaining reliable business information.

Selected Research & Analytics Projects

Online GST Filing Adoption Research

Excel, Google Forms, Survey Research

- Designed and conducted a Google Forms survey of small businesses in Gujarat, India, examining acceptance and use of online GST filing from June to December 2021.
- Cleaned and analyzed responses in Excel using formulas, sorting, filtering, pivot tables, percentages, and charts; documented adoption patterns, barriers, findings, and recommendations and received an A grade.

Workforce & Employee Analytics

PostgreSQL, SQL, People Analytics

- Built a normalized model for departments, employees, salaries, performance reviews, and attendance; defined measures for headcount, performance, attendance, hiring, and tenure.
- Used validated SQL analysis to interpret workforce patterns and document decision-focused recommendations and reporting needs.

Healthcare Operations Analytics

PostgreSQL, SQL, Service Reporting

- Modelled service activity across patients, clinicians, appointments, treatments, billing, and claims; assessed appointment completion, workload, costs, and operational patterns.
- Documented assumptions, validation checks, KPIs, findings, and reporting recommendations for evidence-informed decisions.
