Professional Summary

Early-career operations and data analyst in Toronto with Australian Data Intern experience and a Master of Business Analytics from Australia. Brings PostgreSQL, SQL, advanced Excel, data modelling, data-quality validation, reporting, requirements documentation, repeatable QA checks, and confidential-record handling.

Core Competencies

- **Quality & Controls Foundation:** Data-quality checks, validation, reconciliation logic, issue analysis, documented assumptions, relational integrity, repeatable SQL checks, and GitHub Actions.
- **Data & Reporting:** PostgreSQL, SQL, advanced Excel, pivot tables, extraction, cleaning, data mapping and modelling, KPI reporting, CTEs, rankings, running totals, and window functions.
- **Business Analysis:** Requirements gathering and documentation, process mapping, workflow analysis, reporting requirements, stakeholder communication, and decision-focused recommendations.
- **Operations & Delivery:** Power BI dashboard planning, Microsoft Office, Agile planning and reviews, confidential records, client support, process coordination, Git, and GitHub.

Professional Experience

AYLA Solutions

Australia

Data Intern

2025

- Gathered and documented business and reporting requirements, translating stakeholder questions into structured analytical tasks and reporting outputs.
- Supported SQL extraction, validation, advanced Excel reporting, and dashboard insights for business performance tracking.
- Participated in Agile sprint planning and reviews, communicated progress, and maintained accurate analytical documentation.

Trans Globe Education

India

Support Executive

2022–2023

- Coordinated application updates with students and institutions while maintaining accurate client records.
- Supported administrative reporting, workflow management, client communication, and market research.

Arihant Investment

India

Administrative Executive

2020–2021

- Handled data entry, documentation, and confidential client-record maintenance with close attention to accuracy.
- Supported daily operations and client communication while maintaining reliable business information.

Business Analytics Projects

E-Commerce Sales Analytics

PostgreSQL, SQL, Data Quality

- Built a PostgreSQL model linking customers, products, orders, line items, and payments; applied keys, uniqueness rules, integrity checks, and controlled revenue-recognition logic.
- Analyzed customer, revenue, product, and payment activity; documented assumptions, repeatable validation, GitHub Actions checks, business recommendations, and Power BI dashboard planning.

Healthcare Patient & Hospital Analytics

PostgreSQL, SQL, Claims Analysis

- Modelled patients, clinicians, appointments, treatments, billing, and insurance claims; analyzed completion, costs, billing status, workloads, and claims using CTEs and window functions.
- Added automated validation and GitHub Actions checks and documented assumptions, operational recommendations based on SQL outputs, and Power BI dashboard planning.

HR Analytics

PostgreSQL, SQL, Workforce Controls

- Built a normalized model spanning departments, employees, salaries, performance reviews, and attendance; analyzed headcount, compensation, performance, attendance, hiring, and tenure.
- Applied CTEs, rankings, window functions, repeatable validation, and GitHub Actions; documented workforce recommendations from SQL findings and Power BI dashboard planning.
