Professional Summary

Early-career strategy and analytics professional in Toronto with Australian Data Intern experience and a Master of Business Analytics from Australia. Uses PostgreSQL, SQL, advanced Excel, relational modelling, KPI analysis, data validation, and decision-focused reporting to evaluate customer, financial, and operational questions.

Core Competencies

- **Strategy & Problem Solving:** Structured analysis, customer and financial questions, KPI definition, trend analysis, segmentation, business recommendations, market research, and stakeholder communication.
- **Data & Modelling:** PostgreSQL, SQL, advanced Excel, pivot tables, relational modelling, data cleaning, joins, CTEs, subqueries, rankings, running totals, lag comparisons, and window functions.
- **Reporting & Visualization:** Decision-focused reporting, performance insights, Power BI dashboard planning, visualization requirements, Microsoft PowerPoint, and Microsoft Office.
- **Delivery & Quality:** Agile sprint planning and reviews, requirements documentation, data validation, Git, GitHub, GitHub Actions, workflow coordination, and confidential records.

Professional Experience

AYLA Solutions

Australia

Data Intern

2025

- Gathered and documented business and reporting requirements, translating stakeholder questions into structured analytical tasks and reporting outputs.
- Supported SQL extraction, validation, advanced Excel reporting, and dashboard insights for business performance tracking.
- Participated in Agile sprint planning and reviews, communicated progress, and maintained accurate analytical documentation.

Trans Globe Education

India

Support Executive

2022–2023

- Coordinated application updates with students and institutions while maintaining accurate client records.
- Supported administrative reporting, workflow management, client communication, and market research.

Arihant Investment

India

Administrative Executive

2020–2021

- Handled data entry, documentation, and confidential client-record maintenance with close attention to accuracy.
- Supported daily operations and client communication while maintaining reliable business information.

Business Analytics Projects

E-Commerce Sales Analytics

PostgreSQL, SQL, Customer Analysis

- Built a PostgreSQL model connecting customers, products, orders, line items, and payments; defined controlled revenue rules excluding pending, refunded, and cancelled activity.
- Analyzed customer spend, order frequency, product rankings, monthly revenue, and payment methods; documented validated findings, business recommendations, and Power BI dashboard planning.

Healthcare Patient & Hospital Analytics

PostgreSQL, SQL, Operational Analysis

- Modelled patients, clinicians, appointments, treatments, billing, and insurance claims; evaluated completion, treatment costs, billing status, clinician workload, and claims activity.
- Used CTEs, rankings, segmentation, running totals, and lag comparisons; documented assumptions, repeatable validation, operational recommendations, and Power BI dashboard planning.

HR Analytics

PostgreSQL, SQL, Trend Analysis

- Built a normalized workforce model across departments, employees, salaries, performance reviews, and attendance; analyzed headcount, compensation, performance, attendance, hiring, and tenure.
- Applied CTEs, rankings, window functions, repeatable validation, and GitHub Actions; translated SQL findings into business recommendations and Power BI dashboard planning.
