Hiring Manager, Commercial Financing

First National Financial LP — Toronto, Ontario

Dear Hiring Manager,

I am applying for the Analyst, Commercial Financing position with First National Financial LP. I currently live in Toronto, Canada; I completed my Master of Business Analytics at Edith Cowan University in Australia and my Integrated Master of Business Administration at Atmiya University in India. I bring advanced Excel, SQL, financial-data analysis, record accuracy, reporting, client communication, and NISM securities-market knowledge.

As a Data Intern at AYLA Solutions in Australia, I gathered and documented business and reporting requirements, translated stakeholder questions into structured analytical tasks, supported SQL extraction and validation, and prepared advanced Excel reports and dashboard insights. Through Agile planning and review sessions, I communicated progress and maintained accurate analytical documentation. Earlier, as an Administrative Executive at Arihant Investment in India, I handled confidential client records, data entry, documentation, daily operational support, and client communication with close attention to accuracy.

My E-Commerce Sales Analytics project provides the closest evidence for this position's financial-analysis needs. I connected customers, orders, line items, products, and payments; applied keys, integrity checks, and controlled revenue logic; and analyzed customer spend, monthly revenue, product performance, and payment methods. Healthcare Patient & Hospital Analytics adds cost, billing, and insurance-claims analysis. I documented assumptions, validated outputs, and converted findings into clear recommendations.

My experience is an adjacent analytics and financial-record foundation rather than direct commercial-real-estate underwriting. I would not overstate that distinction. I would bring disciplined Excel analysis, careful document review, organized follow-through, and a strong willingness to learn First National's CMHC, construction, conventional-financing, investor-policy, and lending-regulation requirements.

First National's position as Canada's largest commercial mortgage lender, together with its extensive training and supportive teamwork culture, makes this a compelling opportunity to build deep commercial-financing knowledge. I would welcome the chance to contribute reliable analysis, accurate documentation, and dependable coordination while developing under the Commercial Financing team.

Thank you for your time and consideration. I look forward to discussing how I could contribute to your team.

Best regards,

Jainali Mehta
