Toronto, Ontario, Canada | jainali2000@gmail.com | LinkedIn | GitHub

Professional Summary

Early-career finance and analytics professional in Toronto with a Master of Business Analytics from Australia, an Integrated MBA from India, Australian Data Intern experience, and prior administrative experience at Arihant Investment. Brings advanced Excel, PostgreSQL, SQL, financial-data analysis, validation, confidential-record accuracy, reporting, and client communication.

Core Competencies

- **Financial Analysis Foundation:** Revenue, payments, costs, billing, claims, transaction patterns, analytical recommendations, advanced Excel, and NISM securities-markets foundation.
- **Data & Reporting:** PostgreSQL, SQL, advanced Excel, pivot tables, extraction, cleaning, validation, relational modelling, trend analysis, joins, CTEs, aggregations, and window functions.
- **Accuracy & Documentation:** Business rules, integrity checks, documented assumptions, confidential client records, reporting requirements, process documentation, and repeatable validation.
- **Operations & Stakeholders:** Client communication, workflow coordination, Microsoft Word, Microsoft Office, Agile reviews, Power BI planning, Git, GitHub, and GitHub Actions.

Professional Experience

AYLA Solutions

Australia

Data Intern

2025

- Gathered and documented business and reporting requirements, translating stakeholder questions into structured analytical tasks and reporting outputs.
- Supported SQL extraction and validation and prepared advanced Excel reports and dashboard insights for performance tracking.
- Participated in Agile sprint planning and reviews, communicated progress, and maintained accurate analytical documentation.

Trans Globe Education

India

Support Executive

2022–2023

- Maintained accurate client records and coordinated application updates with students and institutions.
- Supported administrative reporting, workflow management, client communication, and market research.

Arihant Investment

India

Administrative Executive

2020–2021

- Handled data entry, documentation, and confidential client-record maintenance with close attention to accuracy.
- Supported daily business operations and client communication while maintaining reliable financial-business information.

Business Analytics Projects

E-Commerce Sales Analytics

PostgreSQL, SQL, Payments

- Built a PostgreSQL model connecting customers, products, orders, line items, and payments; applied keys, uniqueness rules, integrity checks, and revenue logic excluding pending, refunded, and cancelled activity.
- Analyzed customer spend, order frequency, product rankings, monthly revenue, and payment methods; documented assumptions, repeatable validation, recommendations, and Power BI dashboard planning.

Healthcare Patient & Hospital Analytics

PostgreSQL, SQL, Billing & Claims

- Modelled patients, clinicians, appointments, treatments, billing, and insurance claims; analyzed completion, treatment costs, billing status, workloads, and claims using CTEs and window functions.
- Added automated validation and GitHub Actions checks and documented assumptions, recommendations from SQL outputs, and Power BI dashboard planning.

HR Analytics

PostgreSQL, SQL, Data Integrity

- Built a normalized model spanning departments, employees, salaries, performance reviews, and attendance; analyzed headcount, compensation, performance, attendance, hiring, and tenure.
- Applied CTEs, rankings, window functions, repeatable validation, and GitHub Actions; documented recommendations from SQL findings and Power BI dashboard planning.
