Professional Summary

Early-career Business Analyst and Master of Business Analytics graduate with Australian Data Intern experience in requirements gathering, workflow documentation, SQL validation, advanced Excel reporting, KPI development, and stakeholder communication. Brings graduate training in business systems analysis, process mapping, project management, and technology-enabled improvement.

Core Competencies

- **Business Analysis:** Requirements elicitation and validation, workflow analysis, process mapping, reporting requirements, stakeholder communication, and Agile planning.
- **Data & Performance Analysis:** PostgreSQL, SQL, advanced Excel, extraction, cleaning, validation, KPI definition, trend analysis, operational analysis, and financial reporting.
- **Documentation & Delivery:** Business and process documentation, analytical reports, records management, project coordination, recommendations, and confidential records.
- **Tools & Reporting:** Microsoft Office, Power BI planning, Git, GitHub, GitHub Actions, and Generative AI-assisted analysis.

Professional Experience

AYLA Solutions

Australia

Data Intern

2025

- Gathered and documented business, data, and reporting requirements; synthesized stakeholder questions into detailed analytical needs and reporting outputs.
- Supported SQL extraction and validation; prepared advanced Excel reports and dashboard insights for performance reporting.
- Participated in Agile planning and reviews, communicated progress, and maintained accurate analytical documentation.

Trans Globe Education

India

Support Executive

2022–2023

- Managed client documentation and accurate records; coordinated application and process updates with students and institutions.
- Supported administrative reporting, workflow management, client communication, and market research activities.

Arihant Investment

India

Administrative Executive

2020–2021

- Maintained accurate data, business documentation, and confidential client records while supporting daily operations.
- Coordinated client communication and information updates with close attention to accuracy and confidentiality.

Business Analytics Projects

E-Commerce Sales & Customer Analytics

PostgreSQL, SQL, Power BI

- Modelled customer, product, order, payment, and integration relationships; defined operational and financial KPIs with documented revenue-recognition rules.
- Evaluated SQL findings, reconciled data-quality conditions, and produced recommendations plus Power BI plans for KPIs, filters, visuals, and management use cases.

Workforce & Employee Analytics

PostgreSQL, SQL, Business Intelligence

- Built a normalized workforce model and analyzed headcount, compensation, performance, attendance, hiring patterns, and tenure to support staffing decisions.
- Applied CTEs, rankings, and window functions; translated validated findings into AI-assisted workforce recommendations and Power BI dashboard planning.

Healthcare Operations Analytics

PostgreSQL, SQL, KPI Analysis

- Modelled service workflows spanning patients, clinicians, appointments, treatments, billing, and claims; analyzed completion, costs, status, and workload indicators.
- Documented assumptions and validation; translated findings into operational recommendations and Power BI plans.
