Professional Summary

Early-career data and analytics professional in Toronto with Australian Data Intern experience, a Master of Business Analytics from Australia, and claims-related portfolio analysis. Brings PostgreSQL, SQL, advanced Excel, relational modelling, validation, KPI reporting, Power BI planning, AI-assisted analysis, and stakeholder communication.

Core Competencies

- **Data & Relational Modelling:** PostgreSQL, SQL, advanced Excel, pivot tables, extraction, cleaning, validation, relationships, joins, CTEs, aggregations, rankings, running totals, and window functions.
- **BI & Reporting Planning:** KPI and reporting requirements, Power BI dashboard planning, visualization requirements, filters, decision-use cases, and documented analytical assumptions.
- **AI-Assisted Analysis:** Structured prompts, SQL-grounded insights and recommendations, critical review of outputs, and graduate Machine Learning coursework.
- **Quality & Collaboration:** Integrity checks, business rules, stakeholder communication, Agile planning and reviews, analytical documentation, Git, GitHub, and GitHub Actions.

Professional Experience

AYLA Solutions

Australia

Data Intern

2025

- Gathered and documented business, data, and reporting requirements; translated stakeholder questions into structured analytical tasks and reporting outputs.
- Supported SQL extraction and validation; prepared advanced Excel reports and dashboard insights for performance reporting.
- Participated in Agile planning and review sessions, communicated progress, and maintained accurate analytical documentation.

Trans Globe Education

India

Support Executive

2022–2023

- Managed client documentation and accurate records; coordinated application and process updates with students and institutions.
- Supported administrative reporting, workflow management, client communication, and market research activities.

Arihant Investment

India

Administrative Executive

2020–2021

- Handled data entry, documentation, and confidential client-record maintenance with close attention to accuracy.
- Supported daily business operations and client communication while maintaining reliable business information.

Business Analytics Projects

Healthcare Patient & Hospital Analytics

PostgreSQL, SQL, Claims Data

- Modelled patients, clinicians, appointments, treatments, billing, and insurance claims using validated PostgreSQL relationships and documented assumptions.
- Analyzed completion, treatment costs, billing status, clinician workload, and claims using CTEs, segmentation, rankings, running totals, lag comparisons, and window functions.
- Added repeatable validation, AI-assisted operational insights and recommendations grounded in SQL outputs, and Power BI dashboard planning with KPIs, filters, and decision-use cases.

E-Commerce Sales Analytics

PostgreSQL, SQL, Data Quality

- Built a relational model connecting customers, products, orders, line items, and payments; applied primary and foreign keys, integrity checks, and revenue rules excluding pending, refunded, and cancelled activity.
- Analyzed spend, order frequency, product rankings, monthly revenue, and payment methods; documented validation, AI-assisted recommendations, and Power BI dashboard planning.

HR Analytics

PostgreSQL, SQL, Performance KPIs

- Built a normalized workforce model spanning departments, employees, salaries, performance reviews, and attendance; analyzed headcount, compensation, performance, attendance, hiring year, and tenure.
- Applied CTEs, rankings, window functions, repeatable validation, and GitHub Actions; documented recommendations from SQL findings and Power BI dashboard planning.
