

SKILLS

Data & SQL: PostgreSQL, SQL, relational modelling, data cleaning, validation, integrity rules
Excel & Reporting: Advanced Excel, pivot tables, KPI reporting, trend analysis, analytical outputs
Analytics: Joins, CTEs, window functions, rankings, segmentation, running totals, lag comparisons
BI & Quality: Power BI KPI and dashboard planning, visual requirements, GitHub Actions checks
Business Analysis: Requirements gathering, process mapping, documentation, workflow coordination
Tools: Git, GitHub, Microsoft Office, Google Workspace, Google Forms, AI-assisted analysis

EXPERIENCE

- AYLA Solutions** Australia
Data Intern 2025
 - Requirements & Reporting:** Gathered and documented business and reporting requirements, translating operational needs into structured analytical work and reporting outputs.
 - SQL & Excel Analysis:** Supported SQL-based extraction and validation, prepared advanced Excel reports, and contributed dashboard insights for performance tracking.
 - Agile Collaboration:** Participated in Agile sprint planning and reviews, sharing progress and maintaining documentation.
- Trans Globe Education** India
Support Executive 2022–2023
 - Records & Coordination:** Managed client documentation and accurate records while coordinating application and process updates with students and institutions.
 - Operational Support:** Supported reporting, workflow coordination, client communication, and market research activities.
- Arihant Investment** India
Administrative Executive 2020–2021
 - Data Accuracy:** Handled data entry and maintained accurate, confidential client records and supporting documentation.
 - Business Operations:** Supported daily operations, client communication, and reliable business records.

PROJECTS

- E-Commerce Sales Analytics:** Built a PostgreSQL model connecting customers, products, orders, line items, and payments; defined recognized revenue to exclude pending, refunded, and cancelled activity; analyzed spend, order frequency, product rankings, monthly revenue, and payment methods; and added repeatable validation.
- Healthcare Patient & Hospital Analytics:** Modelled connected operational data for patients, clinicians, appointments, treatments, billing, and claims; used CTEs and window functions to analyze completion, treatment costs, billing status, workload, and claims, supported by automated validation.
- HR Analytics:** Built a normalized workforce model; analyzed headcount, compensation, performance, attendance, hiring year, and tenure; and documented validated findings, AI-assisted recommendations, and Power BI KPI and dashboard plans.
- Online GST Filing Adoption Research:** Designed a Google Forms survey of small businesses, analyzed responses in Excel using formulas, filters, pivot tables, percentages, and charts, and documented adoption patterns, barriers, and recommendations.

EDUCATION

- Edith Cowan University** Australia
Master of Business Analytics 2023–2025
 - Relevant Coursework:** Supply Chain Analytics, Databases and Business Intelligence, Analytics and Business Decision Making, Business Process Management, Project Management, Enterprise Architecture, and Machine Learning.
- Atmiya University** India
Integrated Master of Business Administration 2018–2022

CREDENTIALS

- Business Analysis & Process Management:** Coursera Project Network, issued June 2025; Credential ID: WV4JMS14XVV6.
- NISM Series XII:** Securities Markets Foundation.
