

SKILLS

Systems & Process: Requirements gathering, process mapping, workflow analysis, documentation
Data & SQL: PostgreSQL, SQL querying, relational modelling, data cleaning, constraints, data validation
Reporting: Advanced Excel, pivot tables, KPI definition, KPI reporting, Power BI dashboard planning
Quality & Automation: Data integrity, business-rule checks, repeatable validation, GitHub Actions checks
AI & Analytics: Generative AI-assisted analysis, prompt development, trends, segmentation, recommendations
Delivery: Agile planning and reviews, stakeholder communication, workflow coordination, confidentiality

EXPERIENCE

- AYLA Solutions** Australia
Data Intern 2025
 - Systems Requirements:** Gathered and documented business and reporting requirements, helping connect operational needs to analytical outputs.
 - Data & Reporting:** Supported SQL extraction and validation, prepared advanced Excel reports, and contributed structured insights for business performance tracking.
 - Iterative Delivery:** Participated in Agile planning and reviews, communicated progress, and maintained structured analytical documentation for shared review and follow-up.
- Trans Globe Education** India
Support Executive 2022–2023
 - Process Documentation:** Maintained accurate client records and documented application and process updates for students and institutions.
 - Workflow Coordination:** Supported administrative reporting, workflow management, client communication, and market research for service delivery.
- Arihant Investment** India
Administrative Executive 2020–2021
 - Data Entry & Integrity:** Handled data entry, documentation, and client-record maintenance with attention to accuracy, confidentiality, and reliable business data.
 - Operational Support:** Supported daily business operations and client communication through reliable record maintenance.

PROJECTS

- E-Commerce Sales Analytics:** Built a PostgreSQL model connecting customers, products, orders, line items, and payments; enforced relational constraints, defined revenue rules, and added repeatable validation and GitHub Actions checks.
- Healthcare Patient & Hospital Analytics:** Modelled linked patients, clinicians, appointments, treatments, billing, and claims; analyzed operational patterns with CTEs and window functions and added automated validation and GitHub Actions checks.
- HR Analytics:** Built a normalized workforce model spanning departments, employees, salaries, performance, and attendance; analyzed operational KPIs and completed Power BI dashboard planning and repeatable validation.

EDUCATION

- Edith Cowan University** Australia
Master of Business Analytics 2023–2025
 - Relevant Coursework:** Business Systems Analysis, Databases and Business Intelligence, Business Process Management, Enterprise Architecture, Machine Learning, and Project Management.
- Atmiya University** India
Integrated Master of Business Administration 2018–2022

CREDENTIALS

- Business Analysis & Process Management:** Coursera Project Network, issued June 2025; Credential ID: WV4JMS14XVV6.
- NISM Series XII:** Securities Markets Foundation.
