RE: GRO - Data Analyst, Manulife

Dear Hiring Manager,

I am applying for Manulife's GRO - Data Analyst position, requisition JR26061467. I completed a Master of Business Analytics at Edith Cowan University in Australia in 2025 and now live in Toronto. My foundation combines Australian Data Intern experience with PostgreSQL, SQL, advanced Excel, data validation, reporting requirements, KPI planning, and stakeholder communication. I am particularly interested in the Data Office because its blend of data solutions, business analysis, automation, and continuous improvement matches how I want to build my early career.

At AYLA Solutions in Australia, I gathered and documented business and reporting requirements, supported SQL extraction and validation, prepared advanced Excel reports, and contributed reporting insights for business performance tracking. Participating in Agile planning and review sessions strengthened my ability to clarify needs, organize analytical inputs and outputs, communicate progress, and maintain usable documentation. This experience is directly relevant to collaborating across teams and translating operational questions into clear analysis and reporting.

My published portfolio demonstrates an end-to-end analytical mindset. For E-Commerce Sales Analytics, I modelled customers, products, orders, line items, and payments; defined recognized-revenue logic; analyzed customer and product KPIs; and added repeatable validation and GitHub Actions checks. The project also includes completed AI-assisted recommendations grounded in SQL results and structured Power BI dashboard planning. Healthcare Patient & Hospital Analytics adds more advanced use of CTEs and window functions for segmentation, rankings, running totals, and lag comparisons. These projects taught me to make data structures, rules, checks, and reporting decisions traceable.

My Bank of Baroda Customer Behaviour Analysis and earlier experience at Arihant Investment provide financial-services context. I used Excel and SQL to study customer transaction patterns and present recommendations for customer engagement and service delivery, while Arihant strengthened my record accuracy, confidentiality, client communication, and understanding of investment-services operations. The NISM Securities Markets Foundation credential further supports my interest in wealth and asset management.

The GRO program's structured learning, mentorship, and exposure across Data Analytics, Customer Experience, and Continuous Improvement are especially compelling to me. I would bring dependable SQL and Excel analysis, clear requirements, careful quality checks, customer-focused thinking, and honest communication while continuing to develop hands-on capability in Python, Azure, and Microsoft Power Platform technologies.

Thank you for considering my application. I would welcome the opportunity to discuss how my analytical foundation, financial-services interest, and active-learning mindset could contribute to Manulife's Data Office.

Best regards,
Jainali Mehta

SKILLS

Data & BI: PostgreSQL, SQL, advanced Excel, pivot tables, relational modelling, Power BI planning
Data Quality: Cleaning, validation, integrity rules, repeatable checks, GitHub Actions
Analytics: KPI definition, trend analysis, segmentation, CTEs, rankings, window functions
Business Analysis: Requirements gathering, process mapping, reporting requirements, documentation
AI & Reporting: AI-assisted analysis, visualizations, business insights, recommendations
Delivery: Agile planning/reviews, stakeholder communication, client support, Microsoft Office

EXPERIENCE

- AYLA Solutions** Australia
Data Intern 2025
 - Requirements & Reporting:** Gathered and documented business and reporting requirements, helping clarify questions, inputs, outputs, and decision needs.
 - Data Quality & Analysis:** Supported SQL-based extraction and validation and prepared advanced Excel reports for business performance tracking.
 - Agile Delivery:** Contributed dashboard and reporting insights, participated in planning and reviews, communicated progress, and maintained documentation.
- Trans Globe Education** India
Support Executive 2022–2023
 - Records & Coordination:** Managed client documentation and accurate records while coordinating process updates with students and institutions.
 - Customer & Workflow Support:** Supported administrative reporting, recurring workflows, client communication, and market research for client processes.
- Arihant Investment** India
Administrative Executive 2020–2021
 - Financial-Services Operations:** Supported daily investment-services operations through data entry, documentation, and client record maintenance.
 - Accuracy & Confidentiality:** Maintained reliable business information and supported professional client communication.

PROJECTS

- E-Commerce Sales Analytics:** Built a PostgreSQL model connecting customers, products, orders, line items, and payments; defined revenue logic, analyzed customer and product KPIs, and added validation, GitHub Actions checks, AI-assisted recommendations, and Power BI planning.
- Healthcare Patient & Hospital Analytics:** Modelled patients, clinicians, appointments, treatments, billing, and claims; used CTEs and window functions for segmentation, rankings, running totals, lag comparisons, validation, and Power BI planning.
- Bank of Baroda Customer Behaviour Analysis:** Analyzed customer transaction patterns using Excel and SQL for cleaning, visualization, and trend analysis; presented recommendations for customer engagement and service delivery.

EDUCATION

- Edith Cowan University** Australia
Master of Business Analytics 2023–2025
 - Relevant Coursework:** Business Systems Analysis, Databases and Business Intelligence, Business Process Management, Machine Learning, Enterprise Architecture, and Project Management.
- Atmiya University** India
Integrated Master of Business Administration 2018–2022

CREDENTIALS

- NISM Series XII:** Securities Markets Foundation.
- Business Analysis & Process Management:** Coursera Project Network, issued June 2025; Credential ID: WV4JMS14XVV6.
