

SKILLS

Data Transformation: PostgreSQL, SQL, joins, CTEs, relational modelling, cleaning, validation
Data Interpretation: KPI definition, trend analysis, segmentation, rankings, running totals, lag analysis
Reporting & BI: Advanced Excel, pivot tables, KPI reporting, Power BI dashboard planning
Data Quality: Primary/foreign keys, integrity rules, repeatable checks, GitHub Actions
Business Analysis: Reporting requirements, process mapping, documentation, stakeholder communication
Delivery: Git, GitHub, Agile planning/reviews, Microsoft Office, Google Workspace

EXPERIENCE

- AYLA Solutions** Australia
 - Data Intern* 2025
 - Requirements & Reporting:** Gathered and documented business and reporting requirements, helping clarify questions, inputs, outputs, and decision needs.
 - Transformation & Validation:** Supported SQL-based data extraction and validation and prepared advanced Excel reports for business performance tracking.
 - Reporting & Agile Delivery:** Contributed dashboard and reporting insights, participated in planning and reviews, communicated progress, and maintained documentation.
- Trans Globe Education** India
 - Support Executive* 2022–2023
 - Records & Coordination:** Managed accurate client documentation and coordinated application and process updates with students and institutions.
 - Reporting & Workflow Support:** Supported administrative reporting, recurring workflows, client communication, and market research for client processes.
- Arihant Investment** India
 - Administrative Executive* 2020–2021
 - Data Accuracy:** Supported investment-services operations through accurate data entry, documentation, and records.
 - Accuracy & Confidentiality:** Maintained reliable business information and supported professional client communication.

PROJECTS

- E-Commerce Sales Analytics:** Built a PostgreSQL model connecting customers, products, orders, line items, and payments; defined recognized-revenue rules, interpreted customer, product, monthly, and payment KPIs, and added validation, GitHub Actions checks, AI-assisted recommendations, and Power BI planning.
- Healthcare Patient & Hospital Analytics:** Modelled patients, clinicians, appointments, treatments, billing, and claims; transformed related data with CTEs and window functions for segmentation, rankings, running totals, lag comparisons, validation, and Power BI planning.
- HR Analytics:** Built a normalized workforce model spanning departments, employees, salaries, performance, and attendance; analyzed headcount, compensation, performance, hiring, and tenure with repeatable validation and Power BI planning.

EDUCATION

- Edith Cowan University** Australia
 - Master of Business Analytics* 2023–2025
 - Relevant Coursework:** Databases and Business Intelligence, Analytics and Business Decision Making, Business Systems Analysis, Machine Learning, and Project Management.
- Atmiya University** India
 - Integrated Master of Business Administration* 2018–2022

CREDENTIALS

- NISM Series XII:** Securities Markets Foundation.
- Business Analysis & Process Management:** Coursera Project Network, issued June 2025; Credential ID: WV4JMS14XVV6.
