

SKILLS

Business Analysis: Requirements gathering, process mapping, problem definition, documentation, recommendations
Research & Insight: Data collection, market research, survey design, trend analysis, structured findings
Data & Reporting: PostgreSQL, SQL, advanced Excel, pivot tables, KPI reporting, data validation
AI & Digital: AI-assisted analysis, SQL-grounded findings, Power BI planning, GitHub Actions checks
Consulting Delivery: Stakeholder communication, client support, Agile ceremonies, workflow coordination
Tools: Microsoft Office, Google Workspace, Google Forms, Git, GitHub

EXPERIENCE

- AYLA Solutions** Australia
 - Data Intern* 2025
 - Requirements & Reporting:** Gathered and documented business and reporting requirements, translating operational needs into structured analytical work and reporting outputs.
 - SQL & Excel Analysis:** Supported SQL-based extraction and validation, prepared advanced Excel reports, and contributed dashboard insights for performance tracking.
 - Agile Delivery:** Participated in sprint planning and reviews while communicating progress and maintaining accurate documentation for review and follow-through.
- Trans Globe Education** India
 - Support Executive* 2022–2023
 - Stakeholder Coordination:** Managed client documentation and records while coordinating application and process updates with students and institutions.
 - Market Research & Reporting:** Supported market research, reporting, workflow coordination, and client communication.
- Arihant Investment** India
 - Administrative Executive* 2020–2021
 - Data Accuracy & Operations:** Entered data, maintained accurate confidential records, and supported daily operations.
 - Client Service:** Supported client communication and maintained reliable business documentation.

PROJECTS

- Online GST Filing Adoption Research:** Designed a Google Forms survey; cleaned and analyzed responses with Excel formulas, filters, pivot tables, percentages, and charts; identified adoption patterns and barriers; and documented practical recommendations for process improvement decisions.
- E-Commerce Sales Analytics:** Modelled customers, products, orders, line items, and payments; defined revenue and integrity rules; analyzed customer, product, monthly, and payment trends; and documented validated findings and recommendations.
- Healthcare Patient & Hospital Analytics:** Mapped connected operational data and used CTEs, rankings, running totals, and lag comparisons to analyze completion, cost, workload, billing, and claims, supported by repeatable validation.
- HR Analytics:** Analyzed headcount, compensation, performance, attendance, hiring year, and tenure. Across the three repositories, added GitHub Actions checks, SQL-grounded AI-assisted findings, and Power BI KPI and dashboard plans.

EDUCATION

- Edith Cowan University** Australia
 - Master of Business Analytics* 2023–2025
 - Relevant Coursework:** Business Systems Analysis, Business Process Management, Analytics and Business Decision Making, Databases and Business Intelligence, Project Management, Enterprise Architecture, and Machine Learning.
- Atmiya University** India
 - Integrated Master of Business Administration* 2018–2022

CREDENTIALS

- Business Analysis & Process Management:** Coursera Project Network, issued June 2025; Credential ID: WV4JMS14XVV6.
- NISM Series XII:** Securities Markets Foundation.
