

SKILLS

Data Quality: Data entry, cleaning, validation, integrity rules, discrepancy identification, accurate records
Documentation & Operations: Requirements, process updates, workflow coordination, confidential information
Data & Reporting: PostgreSQL, SQL, advanced Excel, pivot tables, KPI reporting, trend analysis
AI & Quality Checks: AI-assisted analysis, SQL-grounded findings, repeatable validation, GitHub Actions
Business Analysis: Requirements gathering, process mapping, stakeholder communication, Agile ceremonies
Tools: Git, GitHub, Microsoft Office, Google Workspace, Google Forms, Power BI planning

EXPERIENCE

- AYLA Solutions** Australia
 - Data Intern* 2025
 - Requirements & Reporting:** Gathered and documented business and reporting requirements, translating operational needs into structured analytical work and reporting outputs.
 - Data Validation & Reporting:** Supported SQL-based extraction and validation, prepared advanced Excel reports, and contributed dashboard insights for business performance tracking.
 - Agile Collaboration:** Participated in sprint planning and review sessions, communicated progress, and maintained accurate analytical documentation for ongoing work and review.
- Trans Globe Education** India
 - Support Executive* 2022–2023
 - Records & Coordination:** Managed accurate client documentation and records while coordinating application and process updates with students and institutions.
 - Operational Support:** Supported reporting, workflow coordination, client communication, and market research.
- Arihant Investment** India
 - Administrative Executive* 2020–2021
 - Data Entry & Records:** Maintained accurate, confidential client records and supporting documentation.
 - Business Operations:** Supported daily operations, client communication, and reliable business records.

PROJECTS

- Healthcare Patient & Hospital Analytics:** Modelled patients, clinicians, appointments, treatments, billing, and claims in PostgreSQL; validated data and used CTEs, rankings, running totals, and lag comparisons to analyze completion, cost, workload, billing, and claims.
- E-Commerce Sales Analytics:** Linked customers, products, orders, line items, and payments with primary-key, foreign-key, uniqueness, and value checks; defined recognized-revenue rules, identified discrepancies, and analyzed customer, product, and payment trends with repeatable SQL queries.
- HR Analytics:** Built and validated a normalized workforce model for headcount, compensation, performance, attendance, hiring year, and tenure. Across all three repositories, added GitHub Actions checks, SQL-grounded AI-assisted findings, and structured Power BI reporting plans.

EDUCATION

- Edith Cowan University** Australia
 - Master of Business Analytics* 2023–2025
 - Relevant Coursework:** Business Systems Analysis, Databases and Business Intelligence, Business Process Management, Analytics and Business Decision Making, Project Management, and Enterprise Architecture.
- Atmiya University** India
 - Integrated Master of Business Administration* 2018–2022

CREDENTIALS

- Business Analysis & Process Management:** Coursera Project Network, issued June 2025; Credential ID: WV4JMS14XVV6.
- NISM Series XII:** Securities Markets Foundation.
