Reporting: Advanced Excel, pivot tables, PostgreSQL, SQL, ad-hoc analysis, KPI reporting, trend analysis
Process Support: Requirements gathering, process mapping, workflow coordination, reporting requirements
HR Analytics: Headcount, compensation, performance, attendance, hiring-year, and tenure analysis
Collaboration: Stakeholder communication, client support, Agile ceremonies, Microsoft Office
Analytics Tools: Relational modelling, CTEs, window functions, Power BI planning, GitHub Actions

EXPERIENCE

- AYLA Solutions** Australia
 - Data Intern* 2025
 - Requirements & Reporting:** Gathered and documented business and reporting requirements, supporting accurate analytical work and structured reporting outputs.
 - Data Validation & Reporting:** Supported SQL-based extraction and validation, prepared advanced Excel reports, and contributed performance-tracking insights.
 - Workflow Coordination:** Supported Agile planning and reviews, progress updates, and documentation.
- Trans Globe Education** India
 - Support Executive* 2022–2023
 - Records & Coordination:** Managed accurate client documentation and coordinated application and process updates with students and institutions.
 - Service & Reporting Support:** Supported reporting and workflow management while coordinating client communication and market research.
- Arihant Investment** India
 - Administrative Executive* 2020–2021
 - Confidential Records:** Handled data entry, maintained accurate and confidential client records, and supported daily operations through reliable documentation.
 - Operational Service:** Supported daily business operations, client communication, and reliable record maintenance.

PROJECTS

- HR Analytics:** Built a normalized PostgreSQL workforce model spanning departments, employees, salaries, performance reviews, and attendance; analyzed headcount, compensation, performance, hiring year, and tenure using CTEs, window functions, repeatable validation, and GitHub Actions checks.
- E-Commerce Sales Analytics:** Modelled customers, products, orders, line items, and payments; defined revenue rules, analyzed operational KPIs, and added repeatable validation, GitHub Actions checks, and Power BI dashboard planning.
- Healthcare Patient & Hospital Analytics:** Modelled patients, clinicians, appointments, treatments, billing, and claims; used CTEs and window functions to analyze completion, costs, workload, and claims with automated validation.

EDUCATION

- Edith Cowan University** Australia
 - Master of Business Analytics* 2023–2025
 - Relevant Coursework:** People Analytics, Business Process Management, Databases and Business Intelligence, Business Systems Analysis, and Project Management.
- Atmiya University** India
 - Integrated Master of Business Administration* 2018–2022

CREDENTIALS

- Business Analysis & Process Management:** Coursera Project Network, issued June 2025; Credential ID: WV4JMS14XVV6.
- NISM Series XII:** Securities Markets Foundation.
