

Jainali Mehta

Toronto, Ontario, Canada | jainali2000@gmail.com | LinkedIn | GitHub

Professional Summary

Early-career data and operations analyst in Toronto with Australian Data Intern experience, a Master of Business Analytics from Australia, and Supply Chain Analytics coursework. Brings advanced Excel, PostgreSQL, SQL, KPI reporting, data validation, trend analysis, Power BI planning, process documentation, and stakeholder communication.

Core Competencies

- **Supply Chain & Operations Analytics:** Supply Chain Analytics coursework, KPI definition, trend and exception analysis, cost and revenue analysis, business recommendations, and process-improvement focus.
- **Data Analysis:** PostgreSQL, SQL, advanced Excel, pivot tables, extraction, cleaning, validation, segmentation, joins, CTEs, aggregations, rankings, running totals, and window functions.
- **Reporting & Decision Support:** Reporting requirements, KPI and report planning, Power BI dashboard planning, visualization requirements, documented assumptions, and business insights.
- **Documentation & Delivery:** Process documentation, accurate records, stakeholder communication, Microsoft Office, Agile planning and reviews, Git, GitHub, and GitHub Actions.

Professional Experience

AYLA Solutions

Data Intern

Australia

2025

- Gathered and documented business and reporting requirements, translating stakeholder questions into structured analytical tasks and reporting outputs.
- Supported SQL extraction and validation and prepared advanced Excel reports and dashboard insights for performance tracking.
- Participated in Agile sprint planning and reviews, communicated progress, and maintained accurate analytical documentation.

Trans Globe Education

Support Executive

India

2022–2023

- Maintained accurate client records and coordinated application and process updates with students and institutions.
- Supported administrative reporting, workflow management, client communication, and market research.

Arihant Investment

Administrative Executive

India

2020–2021

- Handled data entry, documentation, and confidential client-record maintenance with close attention to accuracy.
- Supported daily business operations and client communication while maintaining reliable business information.

Business Analytics Projects

E-Commerce Sales Analytics

PostgreSQL, SQL, KPI Reporting

- Built a PostgreSQL model connecting customers, products, orders, line items, and payments; applied keys, uniqueness rules, integrity checks, and revenue logic excluding pending, refunded, and cancelled activity.
- Analyzed customer spend, order frequency, product rankings, monthly revenue, and payment methods using joins, CTEs, segmentation, rankings, running totals, aggregates, and window functions.
- Converted validated SQL findings into business recommendations and Power BI dashboard planning with KPIs, filters, visuals, and decision-use cases; added repeatable GitHub Actions checks.

Healthcare Patient & Hospital Analytics

PostgreSQL, SQL, Operations

- Modelled patients, clinicians, appointments, treatments, billing, and insurance claims; analyzed completion, costs, billing status, workloads, and claims using CTEs and window functions.
- Documented assumptions, repeatable validation, SQL-based operational recommendations, and Power BI dashboard planning.

HR Analytics

PostgreSQL, SQL, Performance KPIs

- Built a normalized workforce model spanning departments, employees, salaries, performance, and attendance; analyzed headcount, compensation, performance, attendance, hiring, and tenure.
- Applied CTEs, rankings, window functions, repeatable validation, and GitHub Actions; documented recommendations from SQL findings and Power BI dashboard planning.
