Toronto, Ontario, Canada | jainali2000@gmail.com | LinkedIn | GitHub

Professional Summary

Early-career operations and analytics professional in Toronto with Australian Data Intern experience and prior administrative experience at Arihant Investment in India. Brings advanced Excel, PostgreSQL, SQL, financial-record accuracy, confidential-data handling, payment and revenue analysis, data validation, reporting, and client communication.

Core Competencies

- **Investment-Operations Foundation:** Financial and client records, payment and revenue data, confidential information, transaction-pattern analysis, NISM securities-markets foundation, and attention to detail.
- **Data Quality & Exception Analysis:** Data comparison, validation, duplicate and integrity checks, documented assumptions, business rules, repeatable SQL checks, and issue investigation.
- **Data & Reporting:** Advanced Excel, pivot tables, PostgreSQL, SQL, extraction, cleaning, relational modelling, joins, CTEs, aggregations, rankings, running totals, and window functions.
- **Client & Operational Support:** Requirements documentation, workflow coordination, stakeholder communication, Microsoft Office, reporting support, Agile reviews, Git, and GitHub Actions.

Professional Experience

AYLA Solutions

Australia

Data Intern

2025

- Gathered and documented business and reporting requirements, translating stakeholder questions into structured analytical tasks and reporting outputs.
- Supported SQL extraction, validation, advanced Excel reporting, and dashboard insights for business performance tracking.
- Participated in Agile sprint planning and reviews, communicated progress, and maintained accurate analytical documentation.

Trans Globe Education

India

Support Executive

2022–2023

- Coordinated application updates with students and institutions while maintaining accurate client records.
- Supported administrative reporting, workflow management, client communication, and market research.

Arihant Investment

India

Administrative Executive

2020–2021

- Handled data entry, documentation, and confidential client-record maintenance with close attention to accuracy.
- Supported daily business operations and client communication while maintaining reliable financial-business information.

Business Analytics Projects

E-Commerce Sales Analytics

PostgreSQL, SQL, Payments

- Built a PostgreSQL model linking customers, products, orders, line items, and payments; applied keys, uniqueness rules, integrity checks, and revenue logic excluding pending, refunded, and cancelled activity.
- Analyzed customer, revenue, product, and payment activity; documented assumptions, repeatable validation, GitHub Actions checks, business recommendations, and Power BI dashboard planning.

Healthcare Patient & Hospital Analytics

PostgreSQL, SQL, Billing & Claims

- Modelled patients, clinicians, appointments, treatments, billing, and insurance claims; analyzed completion, treatment costs, billing status, workloads, and claims using CTEs and window functions.
- Added automated validation and GitHub Actions checks and documented assumptions, operational recommendations based on SQL outputs, and Power BI dashboard planning.

HR Analytics

PostgreSQL, SQL, Data Integrity

- Built a normalized model spanning departments, employees, salaries, performance reviews, and attendance; analyzed headcount, compensation, performance, attendance, hiring, and tenure.
- Applied CTEs, rankings, window functions, repeatable validation, and GitHub Actions; documented recommendations from SQL findings and Power BI dashboard planning.
